Spring Summer

For the spring/summer season, we've got two versions of the famous marine style, immersing our lines in the charm of bamboo and the refreshing tone of mint green, taking the summer essence to another level. In the field of gardening, we're introducing new pieces, expanding the range of options to spruce up outdoor spaces, from comfortable seats to elegant outdoor tables. We offer a full collection, including tableware, which fuses functionality and style, creating cosy and endearing atmospheres.

The ITEM home category has been enriched with traditional items of Asian origin, namely Indonesian and Indian, infusing authenticity to our designs.

What's more, our Antique&Unique section features never-before-seen pieces, such as antiques over 100 years old and limited series items, adding exclusivity to every corner and telling unique stories.

Neither have we overlooked current trends: furniture and decoration in light wood that provide brightness and modernity. We've worked hard with our textile category, offering a renewed range that perfectly complements our collections, from soft colours to avant-garde patterns.

With Spring/Summer at ITEM, inspiration flows from the marine style to exquisite elements of Asian culture, fusing the traditional with the contemporary. We're excited to share these innovative proposals that will transform your business into a true oasis of style and authenticity, creating environments that celebrate the beauty of every detail, and we invite you to delve into unique experiences.

Traditional Marine

The traditional marine style creates a fresh and relaxing atmosphere by combining characteristic elements of the environment. The presence of white wood, fibre and pastel colours, especially baby blue, contributes to a serene seaside environment. Decoration includes paintings with harbour scenes, elements inspired by marine life, and traditional scenes, such as lighthouses and boats with nautical patterns, which infuse vitality into rooms. Textiles underline the theme with marine motifs, such as stars and corals, presented in blue and white tones. Wooden elements, such as whale sculptures, add warmth and a direct connection with nature.

This style aims to capture the essences of the sea, providing a cosy and elegant refuge that transports visitors to coastal serenity, where every detail evokes the calm and beauty of the maritime environment.

Atlantic Marine

In the Atlantic marine style, white persists but baby blue gives way to navy blue. White woods give way to recycled woods, reminiscent of classic ship decks. Raw materials such as metal, with a saltpetre-worn effect, can be seen in wall decorations, complemented by striped textiles, which reinforce the nautical inspiration.

This approach fuses the elegance of navy with rustic and recycled elements, creating an atmosphere that evokes the essence of the ocean and maritime tradition, where every detail tells the story of adventures and voyages.

Mint green

This summer, we're soaking up freshness with the mint green trend. This vibrant shade has reached the fridges in our catalogue, available in sizes of 17 and 56 litres, adding a modern and refreshing touch. What's more, we've integrated mint green into outdoor essentials such as sun loungers, hammocks and metal decorations, infusing vitality and style into any outdoor space. These additions to the palette create a summery and harmonious atmosphere.

This trend doesn't just capture the freshness of summer, but also transforms your outdoor areas into elegant and vibrant destinations, where every corner reflects the vibrant energy of this refreshing hue.

Summer decoration

Summer decoration adds freshness and vitality to spaces with charming details. Imagine vases lined with fruits that evoke seasonal exuberance, offering a visual spectacle of vibrant colours. Busts transformed into planters add an artistic and organic touch, fusing the unconventional with the contemporary.

Tableware made of glass and sculpted in the form of fruits in green tones illuminates corners with a subtle elegance. White curves and natural fibres enhance the feeling of lightness and well-being, creating a visual harmony. The green palette and creative use of recycled materials underline our commitment to sustainability, bringing nature into your home in a stylish and refreshing way.

New Industrial

We've explored the fusion of industrial style with Pop Art touches, evoking New York energy. Take a look at our metal planters and bottle racks, as well as furniture with shapes inspired by Vespas, now in black, adding a contemporary touch. Mirrors with black metal frames, lacquered furniture and rugs with a vintage effect all define an urban atmosphere. Meanwhile, pictures and figurines reflect a modern and avant-garde style. Hanging decorations with propeller shapes also feature, providing dynamism.

This bold style captures the vibrant and eclectic essence of New York, fusing industrial and pop elements for a modern and characterful atmosphere.
